

Change Log		
Name	Document	Revisions
Emily Longman	Tech Review	Added in third section that I somehow never pushed to the repository
		Updated everything to the passive voice
		Removed a couple useless sentences
	Design Doc	Updated everything to the passive voice
		Synced with updates to the tech doc
		Added authorization to all sections

Change Log		
Name	Document	Revisions
Dominic Giacoppe	Tech Review	<p>Changed some wording to reflect that it's 2017 now and that SROS is not totally dead</p> <p>Full changelog here https://github.com/ZachR0/Security-FOR-Robotics/commit/55bdc1802fa71713299dd133642d845e2af0a170</p>
	Design Doc	<p>Changed multiple references from "Ubuntu" to "Linux" to better reflect the state of the project</p> <p>Changed some portions of the install procedure concerning installing to an SD card; we ended up flashing directly to memory and forwent the SD card entirely</p> <p>Fixed some spelling errors (whoops)</p> <p>Changed language saying that we would "investigate SROS further" to "we will use ROS for the foreseeable future" to better reflect the state of our project</p>

Change Log		
Name	Document	Revisions
Zach Rogers	Tech Review	Drone Communication Channel section was updated to reflect flight control system changes. No longer using NazaM2, just the PixHawk Fire
